

Radioactive Material Findings for Forest Products (announcement no. 64)

May 17, 2018

1 Test Results of Forest Products

	Food tested	Area	Sampling date	Testing Institute	Results 【Radioactivity(Bq/kg)】	
					Cs-134	Cs-137
1	Shiitake(log-grown)	Producer in Okutama Town	May 14, 2018	Tokyo Metropolitan Agriculture and Forestry Research Center	ND(<4.1)	22.0
2	Shiitake(log-grown)	Producer in Ome City	May 14, 2018		ND(<3.7)	ND(<4.6)

※ The guidance level for radioactive cesium in forest products is 100Bq/kg for cesium-134 and cesium-137 combined (agricultural, forestry, and fishery products are categorized in the food group "general food products")

※ "ND" indicates that levels were less than the detection limit (minimum level able to be detected) in analyses conducted by the testing institutions. The figure in () is the detection limit.
